

# My Influential Relative

By: Brielle Holmes

Nat'e M. D.

This is my mother. This is the most important person in my life because SHE  
GAVE ME LIFE!

# What?

My mom did a lot in my life to influence me to be honest but here are some reasons i can think of. My mom always told me to speak my mind and i've actually seen my mom speak her mind. Also my mom told me to always stand up for myself and she always does it which makes me feel safe. She told me to work hard no matter what and that made me feel special.

# When?

When my mom told me this she was actually doing something to inspire me. My mom was working a full job and going to school during the day. My mom always had a passion to be a Surgical Tech and my mom ACTUALLY passed school. She always told me while doing school and work that “if you really want something you would do whatever to get it” and by her working a job at night and school in the morning WITH NO SLEEP made me feel as if my mom is a true powerful mo and women

# Where?

When my mom was going through this “struggle” we were living in our apartment downtown.

# Why?

The reason why she wanted to become A SURGICAL TECH WAS BECAUSE SHE ALWAYS had a dream do do something in the medical field and she became really inspired by most people in my family and most of her friends.

# How?

This left impact on my life because it made me feel as if I can do anything and that if you really want to accomplish something you go Far to the end of the world to do anything that will make you successful.
